NOTIFICATION (24/July/Adp./33)

It is hereby notified for the information of all concerned that the Vice-Chancellor, in anticipation of the approval of the Academic Council, is pleased to authorize the adoption of the Syllabi and Courses of Studies of the subject of **Economics** of Semester **Vth, VIth, VIIth and VIIIth** for **Four Year Under Graduate Programme (FYUGP)** as per **NEP-2020** (as given in the annexure) for the examinations to be held in the years as per the details given below:

Subject	Semester	For the examinations to be held in the year
Economics	Semester- V	Dec. 2024, 2025 and 2026
	Semester-VI	May 2025, 2026 and 2027
	Semester-VII	Dec. 2025, 2026 and 2027
	Semester- VIII	May 2026, 2027 and 2028

The Syllabi of the courses is also available on the University website: www.jammuuniversity.ac.in.

No. F. Acd/II/24/ 5541-80

Dated: 21/7/2024

Copy for information and necessary action to:

1. Dean, Faculty of Social Science
2. HOD/Convener, Board of Studies in **Economics**
3. Sr. P.A.to the Controller of Examinations
4. All members of the Board of Studies
5. Confidential Assistant to the Controller of Examinations
6. I/C Director, Computer Centre, University of Jammu
7. Deputy Registrar/Asst. Registrar (Conf. /Exams. UG)
8. Incharge, University Website for Uploading of the notification

University of Jammu

(FYUGP)

Syllabus of Economics for the Examinations to be held in the years Dec. 2024, 2025, 2026 Undergraduate Level as per National Education Policy (NEP)-2020 Major (Semester- V)

Course Code: **UMJECT-501**

Credits: **4** (3 Theory + 1 Tutorial)

Total Marks = **100**

Theory = **75**

End Semester Examination = **60**

Midsemester Test: **15**

Title: **International Economics**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = **10**

Final Examination = **15**

Preamble: This International Economics course aims to offer students a comprehensive grasp of trade theories, trade policies, and balance of payments that influence the unrestricted movement of goods and services on a global scale. The course content focuses on both the theoretical foundations and policy frameworks of international trade, providing students with insights into concepts, theories, and policy implications. It also explores the effects of free trade and tariffs on various sectors of the economy. Given the current trends of globalization and liberalization, the paper has gained increased relevance from a policy perspective.

UNIT: 1 Trade Theories-I

Importance of the study of International Economics; Concepts of Internal, Interregional and International trade and their Comparison; Theories of International Trade: Absolute Cost Advantage, Comparative Cost Advantage, Opportunity Cost Theory (Main features, assumptions and limitations of these theories).

UNIT: 2 Trade Theories-II

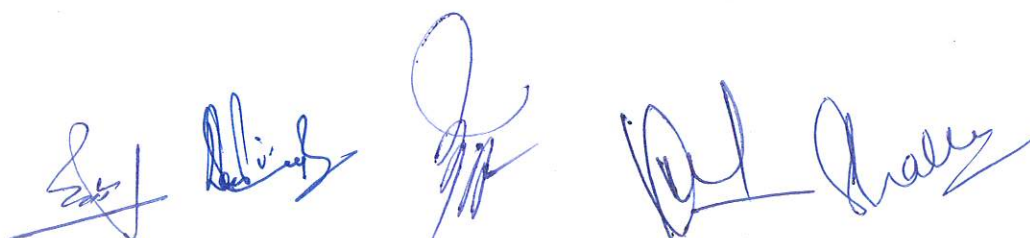

Theory of Reciprocal Demand; Heckscher-Ohlin's theory, Samuelson Theory of International Trade; Trade as an engine of growth: Concepts of terms of trade and their importance and limitations in the theory of trade.

UNIT: 3 Trade Policies

Tariffs: Meaning, types and their impact (*partial equilibrium analysis*); Non-Tariff Quotas: Meaning, types and their impact (*partial equilibrium analysis*); Concept of Optimum Tariff and Effective Rate of Protection; Free Trade Vs. Protection; Export Subsidy: Meaning and Its Impact.

UNIT: 4 Balance of Payments

Balance of Trade and Balance of Payments: Concepts and components; Causes and effects of persistent deficit in the balance of payments and measures to correct the deficit in the balance of payments; Devaluation: Concepts, Merits and Demerits.

Syllabus of Economics for the Examinations to be held in the years Dec. 2024, 2025, 2026 Undergraduate Level as per National Education Policy (NEP)-2020 Major (Semester- V)

Course Code: **UMJECT-501**

Credits: **4** (3 Theory + 1 Tutorial)

Total Marks = 100

Theory = 75

End Semester Examination = 60

Midsemester Test: 15

Title: **International Economics**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

- **Note for Paper Setting:**

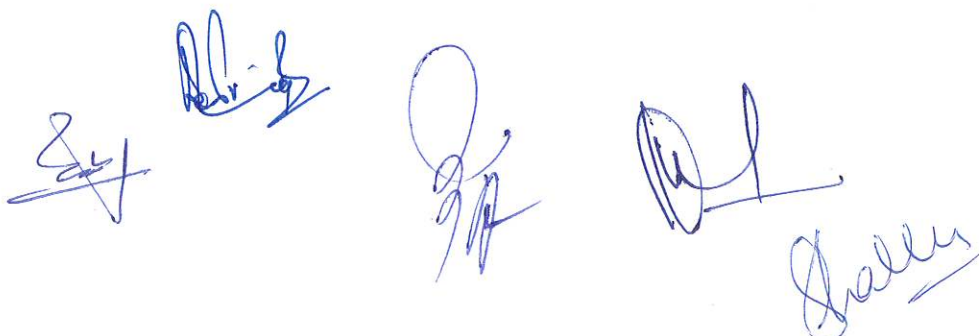

Mid Semester Test (15 Marks): The midsemester test will consist of eight questions drawn from two units. The candidates are required to attempt any five questions. Each question shall carry three (03) marks, and the word limit should be between 250 and 300 words.

Tutorial (25 Marks): This tutorial will be divided into two parts. The first part will be Continuous Assessment of 10 marks, while the second part will be a final examination of 15 marks. To complete the final tutorial examination, the course coordinator will assign each student a topic to write and present in the class. Students will be evaluated based on their content and presentation.

End Semester Examination: The question paper will be consisted of two sections.

Section-A (12 marks) - Four (04) short answer questions representing all units i.e. one question from each unit. Each question carries three (03) marks (**All compulsory**).

Section-B (48 marks) - Eight (08) long answer questions representing the whole syllabus i.e. two questions from each unit. The students are required to attempt one question from each unit (**Four to be attempted**). Each question carries Twelve (12) marks.

Midsemester Test: 10

Title: **Elementary Mathematics**

Duration of End Semester Exam.: **2½ Hours**

Preamble: The aim of this course is to provide students with a comprehensive understanding of fundamental mathematical concepts and their applications in the field of economics. By studying the topics outlined below, students will develop a strong mathematical foundation that enables them to analyze economic phenomena, solve real-world problems, and apply mathematical tools in economic decision-making.

UNIT 1: Some Basic Concepts and Equations

General Overview of Number System: Natural, Integers, rational, irrational, real, complex; Linear Equations: Root of an equation, Linear equation in one variable, Simultaneous linear equation in two variables, Economic Applications; Quadratic Equations: Equations reducible to quadratic form, Simultaneous Quadratic equations, Applications in Economics.

UNIT 2: Matrices and Determinants

Matrices (2×2): Concept and Types; Addition, Subtraction and Product of Matrices; Commutative and Associative Law of Matrices, Inverse of Matrix, Application of Matrices to Solution of Linear Equations.

UNIT 3: Functions, Limits and Derivatives

Function: Definition and Types; Limits of the Functions, use of limits in simple algebraic expressions; Differentiation: Definition, Derivatives of Some Standard Functions, Applications of differentiation in Economics.

- **Note for Paper Setting:**

Mid Semester Test (10 Marks): The midsemester test will consist of six questions drawn from two units. The candidates are required to attempt any four (04) questions. Each question shall carry two and half (2½) marks.

Title: **Indian Economy**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

Preamble: This course focuses on the understanding of basic features of Indian economy, basic issues in Indian agriculture, industrial structure, and services in Indian economy. It will further equip the students with basic knowledge of foreign trade and capital in India.

1. Economic Overview:

- India as one of the world's largest and fastest-growing economies.
- Basic Features of Indian Economy - Poverty, Unemployment, Demographic Structure.
- Trends of GDP growth in India.
- Key drivers of GDP growth - growing population, urbanization, and economic reforms.
- Role of Agriculture in Indian Economy.
- Green and White Revolution -brief Note
- Cropping Pattern in Agriculture sector of India.

2. Manufacturing, Trade and Exports

- Developing India as manufacturing hub- textiles, automobiles, and electronic industry.
- The Make in India
- The services sector - IT, software, and BPO services.
- India as a global outsourcing hub for IT services.
- International trade - Composition of Exports and Imports after 2000.
- Trade direction with other countries and trading blocs.

3. Recent Infrastructure Development Initiatives in India

- Government initiatives on infrastructure development projects, including transportation, energy, and urban development.
- Efforts to attract foreign direct investment (FDI) in Infrastructure.
- Recent Monetary and Fiscal Policies of India and Infrastructure.
- Key economic indicators, such as inflation and interest rates, are closely monitored.

Title: **Summer Internship**

Credits: **2**

Total Marks = 50

Preamble: Upon completion of the 15-day internship, students will gain practical work experience in a professional setting and develop hands-on skills relevant to their field. This experience will prepare them for future employment and professional growth.

It shall be a short-term internship of 15 days duration for job/professional training in a suitable organization or hands on training or activity-based course at college level in order to gain work experience.

All students will be required to undergo internship/apprenticeship in a firm, industry, or organization or training with faculty and researchers in their own or their HEIs/research institutions during the summer term. Students will be provided with opportunities for internship with local industry, business organizations and allied areas.

OR

The students will be required to involve in Community engagement and services

OR

Field Based learning/minor project: The field-based learning/minor project will attempt to provide opportunities for students to understand different socio-economic contexts. They would have an opportunity to gain an understanding of the complex socio-economic problems in the community and innovate practices required to generate solutions to the identified problems. This may be a summer term project.

The internship shall be under a college teacher who will be designated as internship supervisor. After completion of summer internship students will have to produce a report related to the work carried out.

SCHEME OF EXAMINATION/ASSESSMENT:

Each student is required to undergo 02 credits of internship comprising 50 marks in the 5th Semester. Students will submit internship report signed by internship supervisor and college Principal. The internship report will be evaluated internally by a board of examiners set up by the Principal of the college.

*One credit is of one hour duration for fifteen working days (periods) or 23 periods of 40 minutes duration.

Syllabus of Economics for the Examinations to be held in the years May. 2025, 2026, 2027
Undergraduate Level as per National Education Policy (NEP)-2020

Major (Semester- VI)

Course Code: **UMJECT-601**
Credits: **4** (3 Theory + 1 Tutorial)
Total Marks = 100
Theory = 75
End Semester Examination = 60
Midsemester Test: 15

Title: **J&K Economy**
Duration of End Semester Exam.: **03 Hours**
Tutorial =25
Continuous Assessment = 10
Final Examination = 15

Preamble: This course aims to provide a comprehensive understanding of Jammu and Kashmir's economy, covering key sectors such as agriculture, industry, and tourism. The course seeks to equip students with insights essential for informed decision-making and strategic planning in the context of Jammu and Kashmir's economic development.

UNIT 1: Nature of Jammu and Kashmir Economy

Basic features of J&K Economy after 2019; Growth and Composition of State Domestic Product (SDP) of Jammu and Kashmir; Macro framework of Government Finances - share of Centre and UT after 2019.

UNIT 2: Overview of Agricultural Schemes in J&K

Centrally sponsored schemes in J&K - Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), Sub Mission on Agriculture Mechanisation, MIDH (Mission for Integrated Development of Horticulture), PM Formlisation of Micro Food Processing Enterprises Scheme, PMFBY (Pradhan Mantri Fasal Bima Yojana), PMKISAN (Pradhan Mantri Kisan Samman Nidhi)

UNIT 3: Industrial Development in Jammu and Kashmir

Industrial Policy of J&K after 2019; Industrial Development in Jammu and Kashmir - Growth and Problems, Recent Incentives for Industrial growth in Jammu & Kashmir.

UNIT 4: Tourism in Jammu and Kashmir

Tourism Scenario in J&K; Tourism Policy 2020; Promotion Measures – Fiscal Benefits and Incentives; Types of Tourism that can be promoted; Mention Ten New Projects Proposed under the Policy 2020.

Title: **Indian Agriculture**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

Preamble: This course aims to educate students on the role and challenges of Indian agriculture, covering economic importance, productivity enhancement, and historical land reforms. It also delves into agricultural finance, including rural credit systems, NABARD's role, and marketing challenges. Further, it critically examines agricultural pricing policies, encompassing trends, CACP and MSP roles, and the impact of WTO agreements on the sector.

Unit I Introduction to Indian Agriculture

Agriculture and Economic Development in India; Role of States/UTs as Key Producers in Major Crops; Exports and Imports Latest Trends; Problems of Productivity; Rainbow Revolution in India in brief.

Unit II Land Distribution and Diversification of Agriculture in India

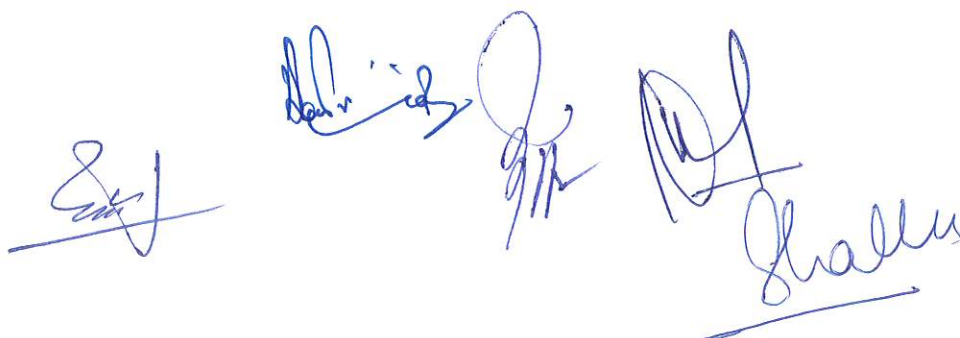

System of land Tenure in Pre-Independent India; Land Reforms: objectives and major land reforms in post-independent India; Diversification of Agriculture in India; Role of Krishi Vigyan Kendras in diversification of Agriculture.

Unit III Agricultural Technology and Marketing initiatives in India

Use of Technology, eNAM, Organic Farming. Food Processing, Soil conservation, integrated watershed management. Soil erosion and its management. Water-use efficiency in relation to crop production, - Drip and sprinkler irrigation; Rainwater harvesting.

Unit IV Farm and Agricultural Price Policy

Farm management, scope, importance and characteristics; Farm planning, Agricultural price policy; Crop Insurance; Doubling of Farmers' Income-Challenges and Opportunities.

Title: **Demography**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

Preamble: Demography as a course of study at the undergraduate level will tend to develop a basic understanding of size and shape of population, distribution of population, population policy and their application to various aspects of the economy. The learners will grasp a clear understanding of the inter-relationship between demography and the process of economic development. They will explore various aspects of the population policy and its impact on socio economic issues.

Unit- I Demography

Theories of Population: Malthusian Theory of Population; Optimum Theory of Population; Relationship between Population and Economic Development.

Unit- II Population Growth and Trends

Basic Feature of Population in India; Fertility: Concepts and Measures of Fertility; Factors Affecting Fertility; Mortality: Concepts and Measures of Mortality; Factors Affecting Mortality; Causes of Decline in Mortality Rates in Developing Countries; Life Table: Types, Assumptions and Importance.

Unit- III Population and Gender

Concept of gender – its relationship with components of population – fertility, mortality, migration.

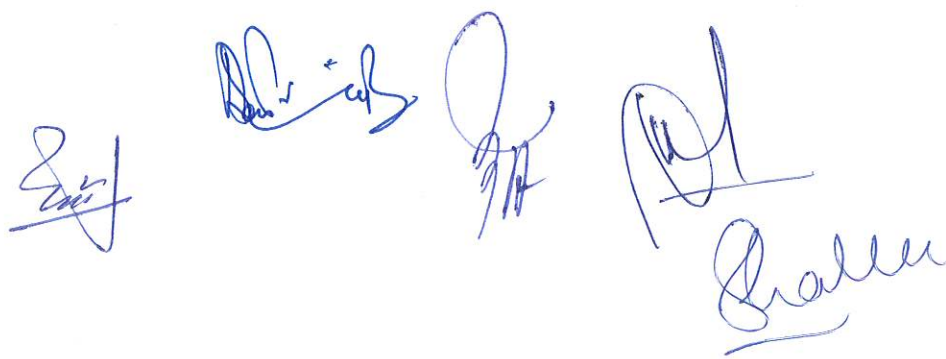

Status of women – social, economic, cultural and health.

Women empowerment and its demographic consequences.

Unit- IV Migration and Population Policy in India

Migration: Meaning, Types, Trends, Factors Affecting Migration;

National Population Policy; Need for Family Planning in India; Criticism of Family Planning; Suggestions

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

Preamble: This course introduces students to Environmental Economics, exploring its meaning, scope, and significance in understanding the dynamic relationship between the economy and the environment. It also addresses the concept of Sustainable Economic Development and explores methodologies for the valuation of environmental goods and services, including both theoretical and practical approaches.

UNIT-I: Introduction to Environmental economics

Meaning, nature and Scope of Environmental Economics; Importance of Environmental Economics, linkage between economy and environment, changing perspectives on the environmental economics and the environment, Approaches in addressing environmental economic issues.

UNIT-2: Valuation of Environmental Goods and Services

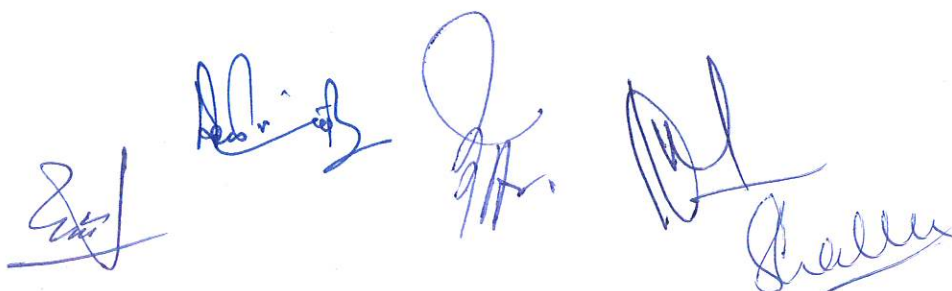

Theory of environmental valuation and conceptual basis of its methods: Compensating Variations and Surplus, Equivalent Variations and Surplus; Revealed Preference Methods: (a) Hedonic Pricing, (b) Household Production Function approach - defensive cost, health cost and travel cost methods; The direct method of environmental valuation: Contingent valuation method in brief.

UNIT-3: Economy and the natural environment

The human economy – natural environment interaction. Biophysical Foundations of production and consumption of human economy, Sources and Sink functions of the ecosystem. Material Balance approach: the concept and conditions of sustainability of the human economy.

UNIT-4: Sustainable Economic Development

Concept of sustainable development, Strong and weak Sustainability, Environmental Adjustment of National Income; Introduction to SDGs.

Midsemester Test: 15

Title: **Advanced Quantitative Methods**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

Preamble: This syllabus introduces students to fundamental concepts in economics and statistics. It covers rules of differentiation and applications in comparative-static analysis, delving into differentials, total derivatives, and optimization techniques. The course also explores measures of central tendency, dispersion, correlation, and regression, providing a comprehensive foundation for analytical methods in economic analysis.

Unit 1: Comparative-Statics and the Concept of Derivative

Rule of Differentiation for a function of one variable; Rules of Differentiation Involving two or more functions of the same variable; Rules of differentiation involving functions of different variables, Partial Differentiation, Applications of Comparative-Static Analysis (Elasticity of demand, marginal utility, Marginal Product, Marginal cost etc.)

Unit 2: Comparative-Statics Analysis of General-Function Models

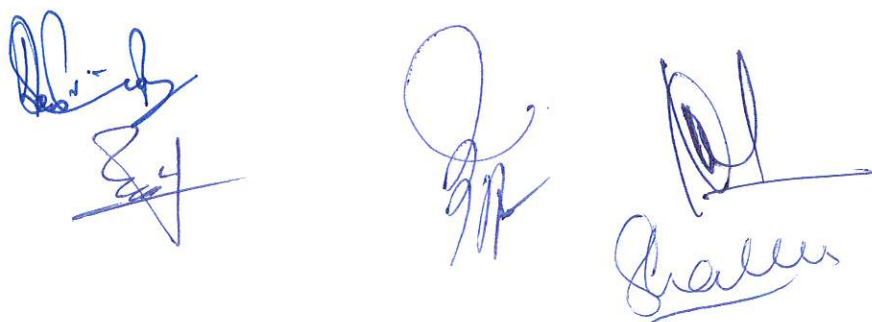

Differentials; Total Differentials; Rules of Differentials; Total Derivatives; Derivatives of Implicit Functions; Optimum Values and Extreme Values; Relative Maximum and Minimum: First-Derivative Test; Second-Derivative test

UNIT 3: Measures of Central Tendency & Dispersion

Measures of Central Tendency: Arithmetic Mean, Median, Mode, Geometric Mean and their Merits and Demerits; Characteristics of Good Averages; Measures of Dispersion: Range, Inter-quartile Range and Quartile Deviation, Mean Deviation, Standard Deviation, Coefficient of Variation Properties of Good Measure of Dispersion

UNIT 4: Correlation and Regression

Meaning, assumptions and limitations of Simple correlations and regression analysis; Pearson's Product Moment Formula and Spearman's Rank Correlations, Concept of least squares and lines of regression; Methods of estimating linear equations, Coefficient of determination.

Title: **Energy Economics**

Duration of End Semester Exam.: **03 Hours**

Tutorial =25

Continuous Assessment = 10

Final Examination = 15

Preamble: Energy Economics is a comprehensive course designed to provide undergraduate students with a deep understanding of the economic principles and challenges associated with the production, consumption, and distribution of energy resources. The course will cover fundamental economic concepts as they apply to the energy sector, examining the interplay between economic factors, government policies, technological innovations, and environmental considerations. Students will gain insights into the global energy landscape, the dynamics of energy markets, and the implications for sustainable development.

Unit 1: Introduction to Energy Economics

Energy Economics: Definition and Scope of Energy Economics; Energy and Economic Development; Basics of Supply and Demand in Energy Markets.

Unit 2: Energy Demand

Energy Demand: Nature of Energy demand; Global Trends in Energy Consumption, Regional Variations, and Shifts in Energy Consumption; Demand for Energy by Sectors, Factors Determining Demand for Energy; Energy Crisis: Causes, Consequences and Remedial Measures; Energy Conservation: Definition, Importance and Techniques; Sustainable Development Goal-7: Targets and Progress

Unit 3: Energy Supply

Energy Demand and Supply Gap in India; Sources of Energy: Renewable and Non-Renewable Sources of Energy; Exploration, Production, and Extraction Costs; Economics of Electricity Generation, Trends in Generation and Consumption; Role of Technology in Energy Supply.

Unit 4: Energy Poverty and Energy Policy in India

Energy Poverty: Definition and Factors Determining the Energy Poverty; Measures taken by the Government of India to Eradicate the Energy Poverty; Energy Subsidies in India: Meaning, Incidences, Merits and Demerits; Major Renewable Energy Policies in India; Energy Efficiency and Conservation.

Skill Enhancement Course (Semester- VIII) (HONOURS WITH RESEARCH)

Course Code: **USEECT-808**

Title: **Dissertation**

Credits: **12**

Total Marks = **300**

Preamble: Application of the theoretical framework learned in research methodology in real life settings. Gain insight of how various methodologies can be applied and will enhance their ability to apply knowledge regarding research methodology. Students will be able to reflect upon selected issues/area in the field of Economics.

1. Exploration and identification of socio-economic problems (with the guidance of supervisor)

- Identification of Research Problem
- Conceptual/theoretical background
- Preparation of synopsis
- Power Point Presentation of synopsis

Students will be required to prepare the synopsis in the 7th Semester. Students will be allotted one faculty member as supervisor for research work. The permanent faculty with Ph.D. and Research experience as per UGC guideline shall be supervisor after being recognized by the Departmental Research Committee of the Nodal Department. Each student shall prepare a research proposal/synopsis for an empirical study.

2. After the approval of a research proposal/synopsis, the students shall undertake the following activities relating to the research work

- Review of literature
- Data collection
- Analysis and interpretation
- Report writing
- Viva-voce

Skill Enhancement Course (Semester- VIII) (HONOURS WITH RESEARCH)

Course Code: ~~USEEC~~ 808

Title: Dissertation

Credits: 12

Total Marks = 300

Student will carry out the research work with the allotted faculty member (supervisor). The student shall prepare a dissertation based on the synopsis approved by the college research committee. Students are required to submit two copies of the dissertation based on the topic, assigned to them. It should have certification by the supervisor concerned authenticating that the work has been done by the candidate and it should be submitted to the department before the commencement of end semester examination.

Scheme of Examination/Assessment

Evaluation of synopsis shall be done by the College Research Committee. Students have to present their research work via PPT presentation before the college Research Committee. The research proposal or synopsis will be scrutinized by the College Research Committee for the concerned subject.

For evaluation of the dissertation, students have to present their research work via PPT presentation. The viva-voce examination shall be conducted after the PPT presentation is done by the student.

Evaluation Scheme

Total Marks: 300 (By the External examiner)

Distribution of Marks: Dissertation 200 Marks

Presentation of PPT and Viva-voce: 100 Marks
