Summer School Computer Vision for Live Object Detection Using Open source Tools

(Under the KARYASHALA Scheme-A SERB initiative)

June 20 -July 2,2022

Website :<https://sites.google.com/view/karayashaluniversityofjammu/home?authuser=1>

Software and Tools to be Covered:

Python with TensorFlow/OpenCV and Intel OpenVino and SCILAB

Objectives

- To Aware the Researchers about Various Image Processing Tools .
- To Train the Researcher and Student on Various Image Processing Tools for working on Real world problem .
- To Train the Researcher on Various AI approaches for creating Supervised and Unsupervised Model .
- To encourage Participants for Writing Research Proposal based on role of AI in Healthcare and Climate Dynamics .
- To Communicate/Publish in high impact factor Journals [SCI/SCIE] .

Eligibility Conditions

- Summer School is open to final year Postgraduate students/research scholars from all Institutes, Colleges and Universities. Preference will be given to the students having interest towards Data Science, Computer Vision, Machine Learning, open source Tools.

Desirable Qualification

- Good academic record and experience in the relevant areas of specializations.
- Valid GATE score /NET JRF Validity in relevant Engineering or Science stream.
- Strong background and understanding of any Data Science
- Publication(s) in recognized national/international conferences and journals of repute.

Contents to be covered

- Introduction to Image Processing and Computer Vision (CV)
- Main Goals and challenges of the CV, Image Processing Goals and Tasks.
- Traditional approaches in Image Processing
- Feature Extraction and their applications to Image Processing
- Introduction to OpenCV for Image Processing
- Introduction of OpenVino Frameworks
- OpenVINO IR format ,
- Model Converter, SSDLite ,MobileNetV2 Open Model Zoo, Openvino-dev package.
- Creating a AI Model Using OpenVino
- Testing and Validating the AI Model based on Computer Vision
- Introduction to Deep Learning (DL)
- Introduction to SCILAB
- Hands on SCILAB functions
- Basic differences between Conventional ML and DL approaches,
- Autoencoder for Feature Extraction and Image Enhancement with Model building
- Applications of CNN in Medical Image analysis with Model building
- Applications of CNN in healthcare

Nature of Support

- The internship will be given for meeting daily necessary expenses such as stationery, consumables, accommodation, food, etc, as per the norms of the funding agency.
- The period of the Training and Skill Internship shall be for eight weeks.
- The participating students will also be eligible for TA reimbursement for their journey to the host institute from their hometown/home institute, both ways, as per the Government of India norms.
- Certificate will be provided to the interns after the successful completion of the internship tenure.

How to apply?

Important Dates

Registration opens May 30, 2022

Last date for application June 12, 2022

Display of shortlisted candidates June 13, 2022

Workshop dates June 20-July 02 , 2022

Event Organizer

Dr.Ashok Sharma

Assistant Professor

email- drashoksharma@jammuuniversity.ac.in

Contact no.- 8825081793

Sh. Neeraj Kumar, Assistant Professor

[Technical Software Support]

[9906014030]

Dr Abid Sarwar, Assistant Professor

[Transport Incharge]

[9697436894]

Sh. Ajay Lakhnotra, Assistant Professor

[Accommodation Incharge]

8492277706,9796006678

Parton

Prof. Rahul Gupta

Dean, Faculty of Mathematical Sciences & Rector, Bhandarwah Campus
University of Jammu

Convenor

Dr. Jatinder Manhas

In-charge Head, Deptt. Computer Sc. & IT
Bhandarwah Campus, University of Jammu

Scan this to apply-

Technical Team

Mrs. Bablu Sharma ,Programmer

Mr. Parvesh Singh ,Assistant Programmer

Mr. Yasser Ali ,Assistant Programmer

Venue- Bhandarwah Campus ,University of Jammu, Bhandarwah Distt:Doda,J&k-182222
