

## Functions of Technical Section

- The Technical Section provides technical treatment and uploads complete bibliographical details of a book in order to create database to be readily available on OPAC for the use by users of University of Jammu for all the books purchased during the particular financial year.
- Recently, a training programme was conducted to guide and keep updated all the library professionals on technical module of LIBSYS 10 software for the all the departments of the University of Jammu
- Intership programmes are also perpetuated in the section from time to time for the students of BLIS and MLIS of University of Jammu and IGNOU./
- Transfer of all the books back to Acquisition section for further processing.
