Each semester shall consist of at least 15 weeks of study with 90 working days (excluding the time spent for the conduct of final examination of each semester).

(xiii) **CREDIT:** Credit is the weightage given to each course of study. It is the numerical value assigned to a course according to the relative importance of the contents and the contact hours required to teach the prescribed syllabi of the programme.

As per prescribed UGC standards: 1 credit = 15 hours of lectures

The instructional days as worked out by the UGC for one academic year are 180 days i.e. 90 days per semester.

The NSQF levels, graded from five to eight for four years undergraduate programmes (FYUGP), are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning.

General education has to be synchronized/aligned with skill and vocational education as per national skills qualifications framework. The level descriptors are given in Table 1 (Annexure II) as described in UGC guidelines on national skills qualifications framework. The curriculum should be designed in a manner that at the end of year-1, year-2 and year-3, students are able to meet the level descriptors for levels 5, 6 and 7 of NSQF, respectively.

(xvii) **DURATION OF THE PROGRAMME** : The undergraduate degree should be of either a three year or four-year duration, with multiple entry and exit options within this period. It is a mechanism to facilitate the students to choose their own learning path to attain a degree/ diploma/certificate, working on the principle of multiple entry and exit as well as anytime, anywhere, and any level of learning. ABC will enable the integration of multiple disciplines of higher learning leading to the desired learning outcomes including increased creativity, innovation, higher-order thinking skills and critical analysis. ABC will provide significant autonomy to the students by providing an extensive choice of courses for a programme of study, flexibility in curriculum, novel and engaging course options across a number of higher education disciplines/ institutions.

The multiple entries and exit options for students are facilitated at the undergraduate and master's levels. It would facilitate credit accumulation through the facility created by the ABC scheme in the "Academic Bank Account" opened for students across the country to transfer and consolidate their credits by undergoing courses in any eligible HEIs. The ABC allows for credit redemption by commuting the accrued credits in the Academic Bank Account maintained in the ABC to fulfil the credits requirements for awarding certificate/diploma/degree by the authorised HEIs. Upon collecting a certificate, diploma or degree, all the credits earned till then, in respect of that Certificate or degree, shall be debited and deleted from the account concerned. HEIs offering programmes with multiple entries and exit systems need to register in the ABC to enable acceptance of multidisciplinary courses, credit transfer, and credit acceptance.

The validity of credits earned will be for a maximum period of seven years or as specified by the Academic Bank of Credit (ABC). The procedure for depositing credits earned, its shelf life, the redemption of credits would be as per UGC (Establishment and Operationalization of Academic Bank of Credit (ABC) scheme in Higher Education) Regulations, 2021.

These courses may also be prerequisites for courses in the major subject. These courses generally would focus on foundational theories, concepts, perspectives, principles, methods, and procedures of critical thinking in order to provide a broad basis for taking up more advanced courses. These courses seek to equip students with the general education needed for advanced study, expose students to the breadth of different fields of study; provide a foundation for specialized higher-level coursework; acquaint students with the breadth of (inter) disciplinary fields in the arts, humanities, social sciences, and natural sciences, and to the historical and contemporary assumptions and practices of vocational or professional fields; and to lay the foundation for higher-level coursework.

200-299: Intermediate-level courses including subject-specific courses intended to meet the credit requirements for minor or major areas of learning. These courses can be part of a major and can be pre-requisite courses for advanced-level major courses.

400-499: Advanced courses which would include lecture courses with practicum, seminar-based course, term papers, research methodology, advanced laboratory experiments/software training, research projects, hands-on-training, internship/apprenticeship projects at the undergraduate level or First year Post-graduate theoretical and practical courses.

Active, cooperative, collaborative and experiential learning pedagogies are some of the examples. The use of technology in creating a learning environment that connects

8

Statutes-FYUGP(15/2020)

learners with content, peers and instructors all through the learning process, respecting learners' pace is the need of the hour.

- a) Classroom processes must encourage rigorous thinking, reading and writing, debate, discussion, peer learning and self-learning.
- b) The emphasis is on critical thinking and challenge to current subject orthodoxy and develops innovative solutions. Curricular content must be presented in ways that invite questions, not as a body of ready knowledge to be assimilated or reproduced. Faculty should be facilitators of questioning and not authorities on expertise.
- c) Classroom pedagogy should focus on the 'how' of things, i.e. applying theory and ideas. All courses, including social sciences and humanities, should design projects and practicum to enable students to get relevant hands-on experiences.
- d) Learning must be situated in the Indian context to ensure no sense of alienation from their context, country and culture.
- e) Classroom processes must address issues of inclusion and diversity since students are likely to be from diverse cultural, linguistic, socio-economic and intellectual backgrounds.
- f) Cooperative and peer-supported activities must be part of empowering students to take charge of their own learning.
- g) Faculty will have the freedom to identify and use the pedagogical approach best suited to a particular course and student.
- h) Pedagogies like PBL (Problem/Project Based Learning) and Service Learning be brought into practice as part of the curriculum. Experiential learning in an internship with a specified number of credits is to be made mandatory.
- i) UGC suggests implementing Blended Mode (BL) as a new mode of teaching-learning in higher education. BL is not a mere mix of online and face-to-face mode, but it refers to a well-planned combination of meaningful activities in both modes. The blend demands consideration of several factors, mainly focussing on learning outcomes and the learner-centred instructional environment.

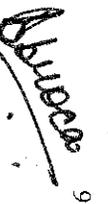

Implementing BL requires a systematic, planned instructional process. An effective teaching-learning process in a blended environment calls for understanding and skills of using appropriate pedagogies with suitable technologies. The UGC Concept Note provides guidelines for the implementation of BL.

8. ELIGIBILITY CRITERIA FOR ADMISSION TO FOUR YEARS UNDERGRADUATE PROGRAMMES (FYUGP)

40. COMPUTATION OF SGPA AND CGPA

Following is the procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

- i. The SGPA is the ratio of the sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

$$SGPA (S_i) = \frac{\sum(C_i \times G_i)}{\sum C_i}$$

Where C_i is the number of credits of the i^{th} course and G_i is the grade point scored by the student in the i^{th} course.

Example for Computation of SGPA

Semester	Course	Credit	Letter Grade	Grade point	Credit Point (Credit x Grade)
I	Course 1	3	A	8	3 X 8 = 24
I	Course 2	4	B+	7	4 X 7 = 28
I	Course 3	3	B	6	3 X 6 = 18
I	Course 4	3	O	10	3 X 10 = 30
I	Course 5	3	C	5	3 X 5 = 15
I	Course 6	4	B	6	4 X 6 = 24
					139
SGPA					139/20=6.95

- ii. The Cumulative Grade Point Average (CGPA) is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$CGPA = \frac{\sum(C_i \times S_i)}{\sum C_i}$$

where S_i is the SGPA of the i th semester and C_i is the total number of credits in that semester.

$$\text{Percentage of Marks} = CGPA \times 10$$

Example for Computation of CGPA

Semester 1	Semester 2	Semester 3	Semester 4	Semester 5	Semester 6
Credit: 21 SGPA:6.9	Credit: 22 SGPA:7.8	Credit:25 SGPA:5.6	Credit: 26 SGPA:6.0	Credit: 26 SGPA: 6.3	Credit 25 SGPA 8.0
$CGPA = 6.73$ (21 X 6.9 + 22 X 7.8 + 25 X 5.6 + 26 X 6.0 + 26 X 6.3 + 25 X 8.0)/145					

The description of the marks converted into Grade points and Grades awarded, in a particular course/paper can be calculated with the help of Table I.

Table I: Letter Grades and Grade Points

Marks (%)	Letter Grades	Grade Point (G)	Result/Class Description
90-100	O (Outstanding)	10	Outstanding

60 to < 70	B+ (Good)	7	First Class
55 to < 60	B (Above Average)	6	High Second Class
50 to < 55	C (Average)	5	Second Class
36 to < 50	D (Pass)	4	Pass Class
0 to < 36	F (Fail)	0	Fail/Reappear
