STATUTES/SCHEME REGARDING TRANSFER OF CREDITS

1. PREAMBLE: The Government of India has set a goal of increasing the enrollment ratio GER to about 30% by 2020 and to 32% by 2021. The Choice-based Credit System (CBCS) has several unique features: Enhanced learning opportunities, ability to match students' scholastic needs and aspirations, inter-institution transferability of students (following the completion of a semester), part-completion of an academic programme in the institution of enrolment and part-completion in a specialized (and recognized) institution, improvement in educational quality and excellence, flexibility for working students to complete the programme over an extended period of time, standardization and comparability of educational programme across the country, etc (RUSA, 2013).

ITEM No.: 07

- (a) To confirm the action taken by the Vice-Chancellor in having authorized the extension of Wi-Fi facility to the PG students residing in the Hostels (Boys & Girls) of the Main Campus by charging a fee of Rs.1800/- (Rs.150/- per month) annually from each student user including M.Phil./Ph.D research scholars.**
- (b) To consider the recommendation of the Internet and Networking Committee w.r.t. reduction in charging of fee for Wi-Fi facility from Rs.1800/- to Rs.1000/- annually from P.G. student residing in the Hostels (Boys & Girls) of the Main Campus of the University of Jammu.**

NOTE:

- (a) The demand of the students regarding the extension of Wi-Fi facility to the students of the University was deliberated by the duly constituted Committee on 15.05.2017 and 29.05.2017 under the Convenership of Prof. Vibhakar Mansotra, Director, Centre for IT Enabled Services & Management, University of Jammu and after threadbare deliberations, keeping in view the genuine demand of the students community, the members were of the opinion that the Wi-Fi facility must be extended to the campus students. A copy of minutes is placed as Annexure-I.**

The extension of the Wi-Fi facility to the students shall be done in two phases, Initially the Centre has completed all the necessary requirements in the existing Girls and Boys Hostels and all the hostels have been made Wi-Fi enabled and the facility shall be extended to the PG students of the hostels immediately.

As per the decision of the Committee every student including M.Phil/Ph.D shall have to pay an annual internet fee of Rs.1800 (Rs.150 per month) for meeting partial day to day support services and maintenance of the network Equipments.

In view of the above, a notification, in anticipation of the approval of the Competent Bodies, has been issued vide No. F.Acd./I/18/355-414 dated 09.04.2018 (Annexure-II).

- (b) Among other issues, the representation of the students of the University of Jammu for providing free Wi-Fi connection, was deliberated in the meetings of the Internet and Networking Committee on 24.04.2018 and 10.05.2018 wherein it was discussed that the University has issued an order vide No. F.Acd./I/18/355-414 dated 09.04.2018 for extension of Wi-Fi connection to the PG students with an annual internet fee of Rs.1800/- and also discussed various aspects of the issue vis-à-vis the existing infrastructure and various pros and cons including the recurring maintenance cost of the internet. It was noted that with the present setup including some equipment in the networking control room and various other places, it is not so easy, to extend this facility to the entire student community, the earlier committee has recommended to extend this facility to the PG students also. It was observed that there is huge recurring cost associated with the maintenance of Hardware, Software and day to day**

requirements and the equipment lying in the control room has reached end of life and requires huge investment in its maintenance. The bandwidth presently available is also not sufficient to cope up the burden of additional large number of users and thus the existing bandwidth is required to supplement with additional bandwidth for which the investment has to be made.

It was further deliberated on the demand of students seeking free W-Fi connection and observed that such a demand is not at all justified and genuine as the free internet facility already exists in all the Department and Hostels as a Central Facility. Any student can use this central facility in his/her Department. Moreover, the central library of the University also has a central internet facility which can also be used by the students as per their convenience. However, the students are demanding Wi-Fi connection on their own devices which cannot be provided free of cost, as a huge cost is involved in the maintenance of the network and other devices including user management. Moreover, once the Wi-Fi connection is allowed to the students on their own devices, the no. of Wi-Fi users in the University are going to increase more than double and lot of maintenance shall be required to manage the users. After deliberations on the annual recurring cost incurred on the maintenance of the Campus Network and Internet services, a rough estimate was worked out and it was noted that the University has to spend around 90.0 lacs annually as recurring expenses on the upkeep and maintenance of internet services. The detail of the recurring expenditure is placed as **Annexure-III**.

Keeping in view the huge cost involved in the maintenance of Campus Network, Hardware, Software and user Management as well the requirements of additional manpower for the purpose, the members are of the view that there is no justification to provide free W-Fi connections to the students, however, the University can consider the reduction in the internet fee as already notified vide order No. F.Acd./I/18/355-414 dated 09.04.2018. After deliberations the members reviewed the internet fee to be charged from the Scholars and Students and decided that instead of annual fee of Rs.1800/-, the University may charge Rs.1000/- and resolved as:

"the order of the University No. F.Acd./I/18/355-414 dated 09.04.2018 with regard to extension of Wi-Fi facility to the student (including Scholars) of the campus be modified and an internet fee of Rs.1000/- instead of Rs.1800/- be charged annually. Further this internet fee shall be paid by each student (including Research Scholars) in the concerned Department/ Centre at the time of admission. Each Department/Centre shall in turn send the entire internet fee, so collected from the students along with list of students and scholars admitted in the Department, to the Director, Centre for IT. A formal order in this regard may be issued through the Dean Academic Affairs and communicated to all the Heads of the teaching Departments/Centres."

Hence, the matter at (a) is reported for confirmation and (b) is submitted for consideration.

MINUTES OF MEETINGS OF THE COMMITTEE CONSTITUTED BY THE VICE CHANCELLOR IN CONNECTION WITH PROVIDING WI-FI FACILITY TO THE PG STUDENTMS OF THE UNIVERSITY HELD IN THE OFFICE OF THE CONVENER ON 15/05 AND 29/05/ 2017.

Present: -

1. Prof. Vibhakar Mansotra, Director, Centre for IT (Convener)

ITEM: To discuss the issue of Extension of Wi-Fi connectivity to the P.G students of the University.

At the outset the convener welcomed the members and apprised them that the existing Wi-Fi facility in the Campus is limited to the Teachers, Officers, Non-teaching Staff and Research Scholars. It was further apprised that now the student community of the University is also demanding Wi-Fi facility for their academic purpose. Students have represented for their Wi-Fi demand to the Hon'ble Vice -Chancellor through various representations dated 07/10/16 and 17/03/17. These students have also personally met and apprised the Vice-Chancellor about the importance and the genuine need of this facility.

The members deliberated on the issue and observed that in today's era internet plays a pivotal role in the academic as well as overall development of the society in general and the student community in particular. The members felt that Wi-Fi facility is a basic requirement of the day and must be provided to the student community to the extent possible. It was further pointed out that the Govt. of India has already Launched the **Digital India Programme** with the vision to transform India into a Digitally Empowered Society & knowledge economy and is making all efforts to ensure presence of ICT in every nook and corner of the country. The ministry of HRD is all set to provide free Wi-Fi to all the central Universities in the country in order to influence the potential of ICT in teaching learning process. The members, therefore, opined that Wi-Fi facility shall definitely add to the academics of the students community as there is huge repository of academic online resources which can be explored and used by the entire academic community including Students for enhancing their knowledge information.

However, the members also observed that the present infrastructure is quite old and needs upgradation/ replacement. The members discussed various aspects of the issue vis a vis the existing infrastructure and various pros and cons. It was observed that with the present setup, including equipment in the networking control room and various other places, it is not possible to extend this facility to the entire student community in the campus. It was further observed that presently the equipment lying in the control room has reached end of life and cannot sustain additional burden. The members also desired that the information in this regard particularly about the security and other policies adopted by the neighboring Universities, if any, be obtained and examined. Accordingly the information from the neighboring Universities like Punjab University, Chandigarh, and University of Kashmir was sought, telephonically, by the Director IT, regarding the Wi-Fi facility to the students community in their campuses. During the conversation with the Concerned persons in these institutions it was learnt that Wi-Fi facility has been extended to the student community by these institutions with various checks and measures (Policies).

Finally, the members deliberated that the extension of such facility to such a huge number requires good Infrastructure in terms of Manpower, Hardware and Software for Security Policies and user Management. It was also observed that once such a facility is extended to all the students in the campus, the management of the users shall be a great challenge before for the people of the Centre for ITESM involved in the maintenance and management. Hence it was felt that some officials of the IT- centre should make a visit to one of the neighboring Universities for detailed assessment of the various types of requirements, functionalities and management of such a huge setup.

Therefore, after threadbare deliberations, keeping in view the genuine demand of the students community, the members were of the opinion that the Wi-Fi facility must be extended to the campus students. However, for extension of this Wi-Fi facility to all the students it shall be necessary to upgrade and enhance the existing infrastructure along with upgradation of the internet bandwidth. Therefore, the members were of the view that the following arrangements are required to be put in place before the Wi-Fi facility is extended to the student community. **Hence keeping in mind the need and requirement of Wi-Fi for the student community and also the necessity of Enhancement and upgradation of the IT-Infrastructure, the members made the following recommendations:**

A)

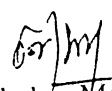

- The Wi-Fi facility may be extended to the student community of the campus.
- To meet day to day maintenance and support service every student, including M.Phil./Ph.D. research scholars, shall have to pay an annual internet fee of Rs 1800/- (150 per month).
- The internet fee shall be paid by the student in the concerned Department / Centre at the time of admission.
- Each Dept./Centre shall in turn send the entire internet fee, so collected from each student, to the Director, Centre for IT for meeting day to day maintenance and other expenses.
- After the expiry of one year the student shall renew the Wi-Fi connection after seeking proper admission in the respective department in the subsequent year.
- A formal order in this regard may be issued through the competent authority

B) For providing Wi-Fi facility to the students, the existing infrastructure be upgraded and strengthened as per the details in the below given table.

NOTE:

A large number of students are approaching the Directorate to seek admission to M.A. Education Programme through distance mode as the sanctioned seats in regular programme in the Department of Education is only 50.

It is pertinent to mention here that the Broad Based Advisory Committee of the Directorate of Distance Education in its meeting held on 12-09-2017 vide resolution No.5 has resolved to start new courses reflecting changing requirement of the society. The recommendation stands approved by the Academic Council vide resolution No3.10.2 dated: 23-11-2017

In this context a proposal for introduction of self financing M.A. Education Programme through distance mode in Directorate of Distance Education, University of Jammu is given as **Annexure-I** for consideration and approval of the Academic Council.

A PROPOSAL FOR INTRODUCTION OF SELF SUPPORTING M.A.
EDUCATION PROGRAMME THROUGH DISTANCE EDUCATION MODE IN
DIRECTORATE OF DISTANCE EDUCATION,
UNIVERSITY OF JAMMU

Distance education is the most rapidly developing an alternative mode of learning provided by educational institutions, both in the developing and developed countries. It applies the new and learner-centered pedagogical modules of learning. At present, it is playing an increasingly important role in dissemination of knowledge. Distance learning aims at diversifying and proliferating educational opportunities far beyond the close confines of a classroom, making them available to all those who aspire and endeavor for education but are unable to do so due to constraints of time, place and money. It is far more flexible, open and less costly mode of education. It is based on the philosophy that anything, which can be learnt in the regular classroom, can equally be learnt through distance education mode.

The Jammu & Kashmir State is extremely mountainous and geographically remote. It is difficult for the students of these areas to pursue their higher education because of economic and social backwardness. It is felt that distance mode of education can cater to the needs, especially of the socially and economically weaker and underprivileged sections of society living in remote and inaccessible hilly areas of J&K State and also of those who cannot seek admission to institutions of higher education/University P.G. departments because of limited number of seats.

'Education' as a field of knowledge is growing day by day. Knowledge in Education is as diverse as education itself. It evolves not only from the operational dimensions of education but also from theoretical and conceptual articulations with the perspective of other disciplines.

M.A. Education is an innovative programme, which would provide the learners a wider and more comprehensive understanding of education as a field of knowledge and would accommodate a wide variety of their learning needs. Needs may range from understanding the concept of education to knowing how knowledge gets generated in the area of education and to acquire higher levels of specialization in specific aspects of education. The courses of the programme represent a

comprehensive and distinctly educational knowledge, which is both disciplinary and technical professional. Moreover, the programme would equip the learners' adequately with the necessary competencies to participate effectively in educational actions in different areas of education and to engage in knowledge generation in education.

Need and Significance of starting M.A. Education Programme through Directorate of Distance Education:-

1. Data for the last five year reveal that the P.G. department of education is receiving every year about hundreds of application forms for M.A. Education Programme. The sanctioned seats for M.A. Education Programme are only 50. This way a large number of applicants desirous of seeking knowledge in the subject are deprived of this opportunity. Moreover, the University of Jammu does not allow candidates to appear as private candidates in M.A Education programme. As such it is advisable to start M.A. in Education through distance education mode in the interest of those who remain deprived of the opportunity to get admitted as regular students in the P.G. Department of Education.
2. It is true that Distance Education Programmes offered by DDE, University of Jammu are accessible to Students belonging to rural and geographically remote areas of Jammu region. If M.A Programme in Education is started, rural students more in number will be benefitted. Furthermore, the M.A. Education Programme through distance mode shall also be beneficial for girls and housewives who can't avail of the opportunity of regular mode of education because of one reason or the other.
3. Education as a course is opted by the maximum number of students at the under graduate level because a) It is easy to understand b) Its syllabi is closely interwoven with Sociology, Psychology and Philosophy.
4. The existing strength of teachers in 'Education' subject at the DDE comprises one Professor, one Senior Assistant Professor and one Assistant Professor. The faculty of Education in the DDE has been successfully running B.Ed and M.Ed Programme besides Education as a course at the under graduate level. Hence there will be no technical glitch in offering M.A Education Programme.

The directorate has thus acquired the expertise in imparting education through distance mode in this subject.

6. The University of Jammu has well established P.G. Department of Education (established in 1977) with commendable achievements. The department can take the responsibility for ensuring academic standards of M.A Education Programme to be started through Distance Education mode.

7. The curriculum offered in the department of Education is very comprehensive and rich and it has produced a number of NET / JRF Scholars. A number of students after completing M.A. Education Programme are selected as teachers in schools and teacher educators in colleges of education and Assistant Professors in Degree Colleges of the state.

To consider the proposal for establishment of Science Club in the School of Biotechnology, University of Jammu, Jammu.

NOTE:

In order to create awareness among the students about various specialized courses taught in the School, the students need to visit other Universities/ Institutions to get the knowledge about the recent techniques/instruments emerging in the area of life science. At present no funds were available for such activities in the School, therefore, the Departmental Affairs Committee in its meeting held on 15-05-2017 proposed to establish a science club to conduct activities such as field trips, educational tour, scientific interaction etc. The DAC also proposed that ` 1,000/- be collected from students every year at the time of admission from the session 2017-18 onwards to meet the expenditure for conducting such activities (copy of minutes of the meeting is placed as **Annexure-I**).

The matter was also discussed in the meeting of the committee constituted by the University vide order No. F. Acd/17/6464-72 dated: 06-09-2017 held on 13-10-2017 under the Convenorship of Dean Faculty of Life Sciences (copy of minutes of the meeting is placed as **Annexure-II**).

Item 1: To discuss the proposal to create independent website of the School.

The School of Biotechnology admits PG students to M.Sc. Biochemistry through national level common entrance test, wherein students all over India apply. In today's digital world, web profile of any institution gives first hand upto date information that can be used by student while making opinion about the institution / department.

In order to keep the academic, research and other activities of the school updated, the members of the Departmental Affairs committee decided to create independent website for the School of Biotechnology. As the information available can be accessed by anyone, anywhere, anytime and can be updated within department. This will help school to attract best of the students for PG courses.

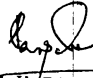

Item 2: To create forums for extension and awareness activities in Biological sciences.

Extension and awareness about the subject taught is an important activity for any education department, however, there are no funds available for such activities in the school of Biotechnology. It was decided to establish a science club to conduct activities such as field trips, educational tour, scientific interaction etc. The DAC resolved to create science club in the School and ₹ 1,000/- be collected from students every year at the time of admission to meet the expenditure for conducting such activities.

Hence DAC recommended that the proposal be sent to University authorities seeking permission for the same.

The meeting terminated with vote of thanks to the chair.

The initial contribution from trustees will go into Capital account.

There after there are two sources of funding.

- I. Membership fee: Membership fee to be decided in first meeting of the trustees. Current proposal is for ₹1000. Membership fee will be deposited in Capital account.
- II. Donations: If not specified (Donor can designate amount for Capital account) all donations to go to Operational account. Other profits from sale of merchandise and excess cash from events organized by association to be deposited in Operational account.

Use of Funds:

The funds will be used to meet requirements proposed by Jammu University and members.

B. Members Proposals: Only proposals coming through funding committee will be considered. The priority will be as follows.

- a. Events or seminars with are cash positive.
- b. Career events
- c. Social events.

The members proposal funding should not exceed 20% of the total funding. The rule applies in long run. Trust is not expected to fund any substantial amount till capital account is large enough to produce substantial earning. The expected first funding/grant will be in fifth year or beyond.

Financial Projections

Assuming the founding trustees contribute ₹20,00,000 and 500 new members join the association in first year. Trust will have initial capital of ₹25,00,000. Interest rate of 7.5% on Capital account and 4.0% on Operational account will earn interest of ₹1,91,000. Assuming donation in first year of ₹1,00,000. The total of ₹2,91,000 will be accumulated in Operational account. This amount is not meaningful to support any University project, but is enough to organize one get-together (Cash neutral or positive) and one career fair. As membership grows and earning from the capital account accumulates Trust can fund up to ₹10,00,000 in fifth year. Please review the attached appendix 1

Conclusion.

The Jammu University Alumni Trust is established as perpetual trust. The strategy is to build and maintain Capital account balance which will ensure that Trust generate consistence yearly earning to fund the development needs of Jammu University for foreseeable period. Which will ensure trustee's donations will continue to benefit multiple generations to come.

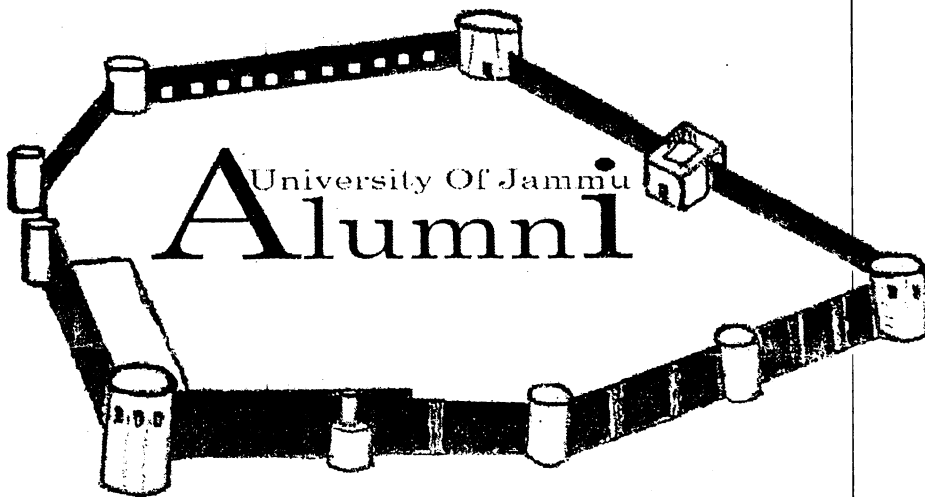

The Trust will operate independent of University. The affairs of university, staff and various departments will not be able to influence stated goals of Trust. Trust will

Confidential, not for distribution

routinely provide advice and support to University and individual departments. But it may take time for staff to accept and think of Trust as partner in providing quality knowledge to general population.

There are various alumni associations in the world. Some of them are extremely large, and most of them are perpetual in nature. This alumni association provides members to be part of same legacy secondary funding organization, which they will be proud of to be part in future.

Alumni organization structure as Trust or Society?

After doing a substantial research on the topic, I have reached conclusion that we should structure it as Trust.

The followings are some of my observations.

1. The trust is easy to create and maintain. Does not require to hold election or required meetings.
2. It will controlled by few core people, helps to continue the cause. New trustees and experts can be added to the board easily. Without any politicking or political interference.
3. Trust can act as Society (organizing alumni meets, dinners etc), the things which society is meant to do.
4. Society gives the members to achieve their aspirations by taking part in elections and taking up leadership positions. Trust can achieve that by offering leadership positions in various committees of the trust.

Few drawbacks of trust are:

1. It is controlled by one person. (**Legal opinion required**). How a Settler can transfer few powers to founding trustees or management.
2. Upon death of Settler, it's impossible to change the objectives of the trust. To overcome this (**Legal opinion required**) an alternative trust has to be maintained. Upon death of Settler, all assets to be transfer to alternative trust (**Legal opinion required**), Whose Settler is alive, and it became primary trust, and another alternative trust is created to maintain continuity.

Please see below the table describing difference between Trust and Society.

Difference between Trust and Society

Basis of Difference	Trust	Society
Statute/Legislation	Private trusts are governed by Indian Trust Act, 1882. Public charitable trusts do not have a national level governing law.	Societies Registration Act, 1860
Minimum number of members	Two	Seven

Geographical area of activities	All India (no need to mention this in the Trust Deed)	A separate registration for All India level is required (8 members from different states required)
Nature of control	One man control, i.e. Settler	Democratic system. Decisions are made by voting. Power struggle may ensue.
Amendments	Can easily be done via a supplementary trust deed	Relatively more difficult. Both Memorandum of Association and Rules and Regulations need to be changed
Names	Easily available	A bit difficult to get the desired name
Bank a/c operation	Controlled by one person, Settler	Two persons, either President or Secretary and Treasurer
Office holders' tenure	Trustees generally hold office for the whole life	Members hold office for a period of time and may stand for re-election
Winding-up	Trust is generally irrevocable, Cannot be wound-up.	Can be wound up if 3/5th of the members so desire
Family members	Can become trustees	Registrar objects on family members becoming part of the Governing Body
Governed by	Board of Trustees	Governing Body
Main documents	1. Trust Deed	1. Memorandum Of Association 2. Rules and Regulation
Objectives	Can be general	Have to be specific
